

Community-based services for community-based success

Candeo clients access a number of core community-based services through which they can learn the skills to achieve their personal goals.

Supported Community Living Services (HCBS MR/BI) provide support to individuals living independently in their own community. Candeo staffers assist clients with daily living needs, building healthy relationships, accessing the community, maintaining their health and safety, and ongoing education of rights and responsibilities. Communication Enhancement Services meet clients' emotional, cognitive and behavioral needs by teaching good communication skills.

Home-Based Habilitation Services teaches skills and provides symptom recognition and wellness recovery action to clients with chronic mental illnesses.

Employment Services (HCBS MR/Habilitation) facilitates competitive employment for clients within their own community by discovering their talents, skills and aspirations and matching them with the best employment options. Works with employees to support them as an employer assistance with accommodation technology.
